The Independent.

Dr. P. B. RANDOLPH, an author of considerable note and much research, among his numerous writings has issued a 'little work' called the Golden Secret, or measuring life, long life, health, strength and power, &c., begins the title page with the following poetic quotation from the Song of the Soul:

What I *see* is passed by;
What I *am* away doth fly;
What I *shall be* few can see;
Yet in *that* my beauties be.

And the same page concludes with the following salutary advice:

Never drink what disturbs your Brain!
Never eat what harms your blood!
Never think what hurts your Soul!
Never love save that which loves again!

In this little work there is embodied the result of much research and observation on a subject that should challenge the attention of all—that of right living. Price, 25 cents—for sale at this office.

Under the caption Organize, in the Index, January 4, published at Toledo—Francis E. Abbott, editor—request is made that the following articles be published in such papers as may choose to give them an insertion. What we understand by the writer's criticisms of Christianity is not to that which is truly good connected therewith, but to the shams to which it is often perverted, either from mistaken zeal, or ambitious and selfish motives. The writer is very radical in his positions:

LIBERALS OF AMERICA!

The hour for action has arrived. The cause of freedom calls upon us to combine our strength, our zeal, our efforts. These are

THE DEMANDS OF LIBERALISM.

1 We demand that church s and other ecclesiastical property shall no longer be exempted from just taxation.

2 We demand that the employment of chaplains in congress, in state legislatures, in the navy and militia, and in prisons, asylums, and other institutions supported by public money, shall be discontinued.

3 We demand that all public appropriations for sectarian educational and charitable institutions shall cease.

4 We demand that all religious services now sustained by the government shall be abolished; and especially that the use of the Bible in the public schools, whether ostensibly as a text book, or avowedly as a book of religious worship, shall be prohibited.

5 We demand that the appointment, by the president of the United States, or by the governors of the va ious states, of all religious festiva s and fasts, shall wholly cease.

6 We demand that the judicial oath in the courts and in all other departments of the government shall be abolished, and that simple affirmation, under the pains and penalties of perjury shall be established in its stead.

7 We demand that all laws, directly or indirectly enforcing the observance of Sunday as the Sabbath, shall be repealed.

8 We demand that all laws looking to the enforcement of "Chr stian" morality shall be abrogated, and that all laws shall be conformed to the requirements of natural morality, equal rights and impartial liberty.

9 We demand that not only in the constitution of the United States and of the several states, but also in the practical administration of the same no privilege or advantage shall be conceded to Christianity or any other special religion; that our entire political system shall be founded and administered on a purely secular basis; and that whenever changes shall prove necessary to this end, shall be consistently, unflinchingly and promptly made.

Let us boldly and with high purpose meet the duty of the hour. I submit to you the following

FORM OF LOCAL ORGANIZATION:

WHEREAS, It is our profound conviction that the safety of republican institutions is imperiled, the advance of civilization impeded, and the most sacred rights of man infringed, by the least interference of the state in matters of religion; and

WHEREAS, Certain grave inconsistencies with the general spirit of the United States constitution still mark the practical administration of our political system, threatening the perpetuity of religious liberty, the existence of free public schools, and the peace and prosperity of the entire land,

THEREFORE, We, the undersigned, hereby associate ourselves together under the following

ARTICLES OF AGREEMENT:

Art. 1 The name of this association shall be The Liberal League of ——

Art. 2 The objects of the Liberal League shall be to secure practical compliance with the "Demands of Liberalism" throughout the country, and especially in ——.

Also, as soon as five hundred such liberal leagues shall have been formed in different places, to send two delegates to a national convention of liberal leagues, to be hereafter called, in order to co-operate with all the liberals of the country in securing the needed reforms.

Art. 3 The means employed in working for these objects shall be regular local meetings, free discussions, lectures, addresses, conventions, the platform, and the press in general, and all such other means as are peaceable, orderly and right.

Art. 4 Such measures shall be adopted for raising funds for the league as shall be prescribed in the by laws by a two-thirds vote of the members.

Art. 5 Any person may become a member of the league by subscribing his or her name to these articles of agreement.

Art. 6 The officers of the league shall be a president, vice president, a secretary, a treasurer, and an executive committee of three members; and their duties shall be those commonly pertaining to those offices. The president and secretary shall be ex-officio delegates to the national convention of liberal leagues, when called together.

Art. 7 These articles of agreement may be amended by a three-fourths vote of the members present at any regular meeting, provided due notice of the proposed amendments shall have been sent to every member at least two weeks previous to such meeting.

Liberals! I pledge to you my undivided sympathies and most vigorous co-operation, both in The Index and out of it, in this work of local and national organization. Let us begin at once to lay the foundation of a great national party of freedom, which shall demand the entire secularization of our municipal, state and national government. Send to me promptly the list of officers of every Liberal League that may be formed, and a standing list of all such leagues shall be kept in The Index. Ronse, then, to the great work of freeing America from the usurpations of the church! Make this continent, from ocean to ocean, sacred to human liberty! Prove that you are worthy descendants of those whose wisdom and patriotism gave us a constitution untainted with superstition! Shake off your slumbers, and break the chains to which you have too long tamely submitted!

FRANCIS E. ABBOTT.

Toledo, O., Jan. 1, 1873.

Mr. Abbot, as may be seen by the foregoing, is in earnest in this work, and how ever much he may be wrong, in the estimation of many good people, we regard him entitled to a hearing, and for that reason, at his request, insert his propositions. Of course the "rigid righteous," as Burns denominates them, will send him to the devil, or as far in that direction as they can; for even printing it we may look out for a few minor anathemas: but the freedom of the press is one thing, and a big thing—freedom of speech is of equal importance, and so far as the expression of opinion is involved, none should be restricted.

THE HISTORY OF OUR EARTH.

We are taught by geology that the time has been when our earth existed as a molten mass of matter. All rocks and metals were melted and the fiery mass was surrounded by a thick atmosphere charged with vapors and gasses. The direct proof of the earth's original fluidity, is the spheroidal form of the earth. Nothing but a melted mass of matter could assume this form under the influence of the rotation upon its axis.

But we need not be confined to the geologist alone; go to the astronomer and he will furnish us with examples of analogous conditions.

Our sun, that great center of light and heat, is even now in a state of intense ignition; and many of the stars of the firmament are immense burning suns. In the course of countless ages the earth has lost heat, and cooled sufficiently to become solid on the surface, while the interior remains to this day a fiery, molten mass.

The past history of the globe has been divided into a number of ages or periods: this division is based upon the occurrence of the various fossils. For it is evident that the life of the globe has changed with the progress of time. And each age has had its peculiar species of animals and plants.

The Azoic age is the earliest. In this age is included all time from the first appearance of animal life. When the earth had become sufficiently cooled the steam in the atmosphere condensed and gathered as water in the depressions of the earth's surface. As the cooling continued, and the crust became thicker, the melted interior repeatedly broke through it, and burst forth in streams of lava, which in turn hardened and became igneous rocks.

Some regions of the earth's crust were uplifted and others gradually subsided. The water obeying the laws of gravitation left the uplifted tracts and gathered in the depressions, and the materials it removed from one place were deposited as stratified sediments in others.

Such changes and revolutions followed one another until the earth was properly prepared for the first appearance of animal life.

The age of mollusks succeded the Azoic age; the earth was not yet prepared to receive animals of any great distinction, but was inhabited only with animals of the simplest kind. Star shaped animals that consist of joints or segments, as worms, make their first appearance on the earth, and animals similar to our oyster and muscles were found in great numbers.

Next is the age of fishes or devonian age. By this time the earth had become fitted for higher, and more developed animals and plants than those of the preceeding age. Oysters and mussels were numerous, but fishes belonging to the order of ganoid fishes and sharks, sported in the tepid waters of primeval seas.

The devonian age was followed by the carboniferous age. In this age amphibious animals appear as the first representatives of reptiles; also insects such as dragonflies and locusts, were to be found sporting in the sultry breeze of a torrid clime; crustaceous animals, that is such as resemble lobsters and crabs, wandered in those ancient seas unmolested by ambitious man. But this age is mainly distinguished by the enormous abundance and luxuriant growth of vegetation The temperature of the earth was much greater then than it now is, and the impure atmosphere contained an immense excess of carbon which was used by the vegetation. Great forests and jungles of magnificent foliage, but of few and inconspicuous flowers covered the lands from the equator to the poles. It was a period of unceasing change. Destructive floods undermined the dense vegetation, which fell layer upon layer, gradually changing into vast coal-fields under the pressure of the water. By the description Prof. Buckland gives us in his Bridgewater treatise, in speaking of the impression of plants found in the coal mines, we may form a faint idea of the beauty of those ancient forests. He says "The most elaborate imitations of living foliage upon the painted ceiling of Italian palaces bear no comparison with the beautious profusion of extinct vegetable forms with which the galleries of those instructive coal mines are overhung. The roof is covered as with a canopy of gorgeous tapestry enriched with festoons of most graceful foliage, flung in wild, irregular profusion over every part of its surface."

"The effect is heightened by the contrast of the coal black color of these vegetables, with the light groundwork of the rock to which they are attached. The spectator feels himself transported as if by enchantment, into the forests of another world, he beholds trees of forms and characters, now unknown upon the surface of the earth, presented to his senses almost in the beauty and vigor of their primeval life; their scaly stems and bending branches, with their delicate apparatus of foliage, are all spread forth before him, little imposed by the lapse of countless ages, and bearing faithful records of extinct systems of vegetation, of which these relics are the infallible historians."

We will now glide swiftly on and briefly notice the reptilian age. Nothing of special interest is connected with this age; the animal kingdom is becoming more perfect and much larger in size than those in any of the preceding ages; instead of the crab and lobster was found gigantic marine animals with the teeth and head of a crocodile, and from ten to thirty feet long, and a huge reptile with the head and neck of a snake, and great flying reptiles were the only denizens of this mundane sphere.

We have now come to the mammilian age; by this time many of the animals and vegetable forms had become extinct, and larger and more perfect ones appear. For instance imagine the bones of the dinotherium to start out of the soil, where unmolested they have slumbered for century upon century upon century, and become clothed with flesh and instinct with life. You will have before you a quadruped eighteen feet in length, and of proportional height, much larger than the elephant, and with downward curved tusks reaching two or three feet below his lower jaw.

Again. Let the megatherium be brought back to life on the pampas of South America, and you will have an animal twelve feet long and eight feet high with proportions perfectly colossal. Its fore feet were a yard long, its thigh bone three times thicker than that of the elephant, its width across the haunches five feet, with a spinal marrow one foot in diameter.

What a giant in comparion with the sloth, the ant-eater and the armodillo, to which it was allied by anatomical structure.

Think for a moment of those ancient morasses swarming with frogs from the size of an ox to that of an elephant, and still more remarkable for peculiarities of structure was a carnivorous marine reptile, sometimes thirty feet long, which had the nose of a porpoise, the teeth of a crocodile, the head of a lizard, the vertibra of a fish, and the paddles of a whale.

Its eye, having an orbital cavity of fourteen inches in its longest diameter, was proportionately longer than that of any living animal.

In short we find in this animal a combination of mechanical contrivances which are now found among three distinct classes of the animal kingdom. We might thus go on describing many more interesting species of animals which once inhabited our terrestial globe, but time will not permit, and we must hasten on, and lastly notice the present era, or the age of man.

In this age the earth has reached a state of comparative stability. Changes take place, but they are less sweeping and less violent than those of the preceding ages.

The animal element is no longer dominant; the majority of the large beasts, that during the preceding eras, were the chief denizens of the world, have become extinct, and made room for smaller but higher creatures.

Man as the most highly organized being, appears latest upon the earth, which has, by means of successive changes in the past, arrived at that stage of development which renders it a fit dwelling place for him.

Thus we see that the science of geology bring to view a series of changes, which stretch backward through periods of such amazing length, that the imagination is not able to fix the time of the beginning, and from the analogies which come up from the past, we are pointed forward to indefinite ages during which man and his cotemporary races will work out the grand purposes of their earthly existence, and not only so, but from the changes to which the earth has been subjected, we may believe that other changes will take place which will sweep away the present races of animals and plants, and that new and higher forms of organic beings will inhabit the renovated earth.

It is thus that the records of geology carry us backward far beyond the time when human history began, and point us to indefinite ages after it shall have been completed.

How does it exalt and enlarge our ideas of the plans of Jehovah! How great is his power, how unsearchable his wisdom, how wonderful his benevolence! surely "His understanding is infinite." R. H. R., Dalton, O.

THE MOST CELEBRATED INUNDATIONS OF MODERN TIMES.

In January, 1861, nearly 40,000 acres were submerged in Missouri.

A great inundation occurred in the southern part of France in June, 1855. The interest which Napoleon III took then in the relief of the sufferers, will be recorded in the pages of history.

In May, 1859, 160 squares and 1,600 houses were covered in New Orleans by the waters of the Mississippi.

In 1840, the Rhone broke through its banks and covered 60,000 acres of land. Lyons suffered immensely, and 100 houses in Avignon. 218 at LaGuillotrere and upwards of 300 at Voise. Marseilles and Nimes were carried away.

In 1833, 10,000 houses were swept away, and 1,000 inhabitants perished in the flood at Canton, China.

In 1830, 50,000 inhsbitants were left homeless by the overflow of the Danube.

In 1829, the Vistula broke through its dykes at Dantzic, drowned 10,000 head of cattle, and destroyed 4,000 houses.

In 1811, 24 villages were carried away by the waters of the Danube, near Pesth.

In Silesia, 6,000 inhabitants perished in the floods in 1813.

In 1802, 1,000 persons perished in an inundation at Lorca, Spain.

Two thousand persons lost their lives by the swelling of the mountain torrents in the Navarra, 1787.

In 1686, a rock opened in Yorkshire, England, and poured out water to the height of a church steeple.

Fifty persons perished during the floods of 1617, Catalonia.

1830, 400,000 persons are said to have perished by flood, occasioned by the breaking of the dykes in Holland.

In 1483, the Severn overflowed for ten days; carried men, women and children in their beds, and covered tops of many mountains.

DISCOVERY OF THE REMAINS OF GIANTS IN KENTUCKY.

The Carlisle (Ky.) Mercury says that on the farm of Mr. Harrison Whaley near Marshfield, in that county, is a skirt of woods which possesses characteristics of deep interest. About three inches beneath the surface of the entire tract may be found innumerable bones, evidently the remains of an extinct species of the human race. Several mounds are also in the woods, and in one which has been partially explored were found four skulls and bones which from their size, must have belonged to a race of beings far more gigantic than the race which now inhabits the earth. In this mound were also found many clay utensils; also arrowheads cut out of the solid rock, and pipes of the same material. Such a memorial of the past starts many inquiries. Was the place once a battle ground, where the aborigines fought to maintain the glory of their respective tribes? Or was it a common burial ground. The first seems to be the most plausible theory, inasmuch as the whole tract, covering at least fifteen acres, has multitudes of human bodies but a few inches beneath the surface. It is evident they were never buried but originally lay exposed to view, until the accumulated deposits of time formed the black, rich soil which covers them. But whatever theory may be adopted, it is certain that these bony memorials ante-date history, and furnish another proof of how little is known of the races and tribes who flourished it may be centuries ago.

MATILDA AT THE GATE.

A RURAL ROMANCE.

Matilda, just you mind them hens,
And shoo 'em away from here;
They're scratching all the garden up—
Why, Tilly's gone—wa'al, wa'al, that's queer
She ain't contrary as a rule,
And gen'lly obeys my will;
But, though she's heard me off she's put—
Why, there's Lorenzo Pettengill!

He met her, and she's stopped to talk—
Them hens will eat up everything—
He's wanting her to take a walk—
Wa'al, it's nice to walk in spring.
He's took her hand—come, that won't do—
She seems to stand uncommon still;
I'd better let them know I'm round—
Good evening, Mr. Pettengill!

He don't mind me—it ain't no use—
Ah, wa'al, my time has been and gone
But then, I'd really no idee
How Tilda was a getting on,
These gals grow up, and pretty soon
They lay us old ones on the shelf,
Lorenzo is a smart young man—
I guess I'll tend them hens myself.

OLD-TIME WINTERS.

The remark is frequently made that our winters are growing colder. A perusal of the following facts will dispel this idea:

In 1664 the cold was so intense that the Thames river was frozen to the depth of sixty one inches. Almost all the birds perished.

In 1691 the cold was so excessive that the famished wolves entered Vienna and attacked the domestic animals, and even men.

The winters of 1695 7-9 were remarkable for the severity of the cold.

In 1709 occurred that famous winter known as the "cold winter" by distinction. All the rivers and lakes were frozen, and even the sea for several miles from shore. The ground was frozen nine feet deep. Birds and beasts were frozen in the fields, and men perished by hundreds in their houses. In the south of France the wine plantations were ruined. The Arabic sea was frozen over, and a large portion of the Mediterranean.

In 1716 the winter was so intense that the straits between Copenhagen and Sweden was frozen so that the people traveled over with perfect safety.

In 1740 the winter almost equaled that of 1709. In Spain and Portugal the snow lay ten feet deep. The Zuyder Zee was frozen over, and thousands of people went over it. All the lakes in England were frozen, some of them many feet deep.

In 1744 snow fell in Portugal to the depth of twenty three feet on a level.

In 1754-5, in England, the strongest ale exposed for fifteen minutes became crusted with ice one eigth of an inch thick.

In 1771 the Elbe river was frozen solid to the bottom.

In 1779 the Danube, below Vienna, was frozen to the depth of five feet.

The winters of 1784 5 were uncommonly severe.

All the winters from 1800 to 1812 were remarkably cold, particularly the latter in Russia, which proved so disastrous to the French army.

THE SMOKE NUISANCE.

Mr. B. F. McCarty, of Cleveland, has made a discovery which promises to settle, partially at least, the question of smoke consumption, and in a different way from any yet suggested. Mr. Mc. was looking after means to secure a better draft for a sluggish fire, and the idea occured to him, after other devices failed, to try the effects of steam. A small pipe was made to conduct the 'dry steam' from the top of the boiler to the upper part of the furnace, where it entered in two small jets striking downward on the burning fuel. No sooner was the steam injected into the furnace than the sluggish, smoky fire sprang up into a clear, bright, yellowish and intensely hot flame, filling the whole furnace with a loud roar. The end sought—a strong draft—was attained, and in addition the long sought desideratum of a smokeless fire. This simple apparatus was next applied to the furnace of the Cleveland Herald printing establishment, and that journal gives an interesting account of the result.

It says: The smoke stack that had long been a nuisance to onrselves and our neighbors was instantly as innocent of smoke as a deserted house, and so it has continued, save when the steam has been turned off for the sake of experiment and comparison. The exact chemical process is not yet clearly determined. The most probable explanation is that the agitation caused by the violent injection of the particles of steam brings the oxygen of the air into more rapid combination with the coal gas, and so facilitates combustion. The steam itself may be decomposed, and so furnish some oxygen, but this does not add to the heat, as an equal amount of the heat gained in the recombination of the oxygen is lost in its separation from the hydrogen in the steam, there is, in the Herald furnace, a saving of about twenty-five per cent of the fuel consumed, which represents the amount of carbon hitherto carrid off in smoke. By M. McCarty's simple contrivance—on which he has secured a patent—the the Herald saves money by the consumption of less fuel; it no longer annoys its neighbors with a cloud of black smoke, even when fresh coal is thrown on the fire; and the engineer reports that he can get up steam much quicker than before."

A Nelson street man was charged by his wife to bring home her bonnet Saturday night, but he became imbued with liquor that he fell on the street and bursted the band-box, and the hat rolled out on the walk. He grabbed for it at once, as also did a playful dog, and for a while it was difficult to determone which would get hat. They divided it the man going one way with a few straws, and the dog another with the balance. When he got home he extended his share of the victory to the wretched woman and bursted forth in unfeigned admiration: "It was the goldarndest dog to (hic) hold on I ever saw Marier, (hic) an' if I hadn't been perfectly sober (hic) he'd a had the hull (hic) the hull on it."

NEWSPAPERARCHIVE®

The Independent.

Two Dollars a year, in advance.

Massillon, Wednesday, January 15.

Once more the Baltimore & Ohio road is talking of extending its northwestern connection, so as to reach Chicago more directly, and by its own route. The president of the road has given notice that measures to accomplish this end will soon be actively put to work Somebody will get the benefit of it.

Last week we were informed that engineers were at work in laying out a track for extending the Massillon & Cleveland road south, so as to connect with other important roads in the vicinity of Dover. It is said that such a road would make one of the most direct routes between Cleveland and Cincinnati; and if this is the case, the importance of the movement is a matter of no little interest to this city.

A very animated discussion has lately broken out among the Methodist preachers in the city of New York on such questions as these—Shall the wicked be finally destroyed?—Will the wicked in hell finally become extinct? Can't these debaters be satisfied with that authority which says the wicked shall be cast into hell, and there be punished without end? Or are they turning annihilationists? It looks that way when the question is up, will the wicked in hell finally become extinct? That idea is not according to the old theories of orthodoxy. The roasting and burning; and groaning were pronounced to be forever and ever, often painted in the most vivid colors of excited imaginations. Is that notion to be set aside now?

At DesMoines, Iowa, a widow woman prosecuted a grogseller for causing the death of her husband, placing the damages at $5,000. This prosecution was got up by an association of reformed drunkards, which employed the best legal talent, and after energetically contesting the case the jury rendered a verdict for the plaintiff in the sum of $2,520 and costs. The grog party did their best, procuring the best lawyers, and since the case has been decided against them are making efforts for a new trial: but it is thought they will not succeed. As it was looked up on as a test case, the prospect is it will be only the beginning of a legal warfare against the drunkard makers in that state.

That frightful spirit which used to scare and terrify our slaveholders and their friends in this country, viz., abolitionism, has broken out in Spain, almost the last place in the world to look for such an occurrence. A few days ago they had a lively time at Madrid, where white and black people indulged in an anti-slavery demonstration Well, it begins to look as if the old, patriarchal, scriptural, constitutional and God ordained institution, human slavery—according to old ecclesiastical authority—is about to be killed off on our earth. We can spare the doomed thing.

The news of the death of Napoleon, which took place at Chiselhurst, England, on the 9th inst., created considerable interest for a short time. He had been sick for months, and seemed to be improving, but Thursday morning became worse and died in a short time after the change. Like his great uncle he died on British soil, though not the same sort of exile. Speculation is wild as to what will be the result to France in consequence of the death of this man. Some pretend to claim that his son will be the next emperor. as there is a strong party in favor of such a consummation. Is it not about time that the Bonapartes were played out as rulers? The world has suffered more for their ambition than they have ever done good to atone for it.

Among the important recommendations in the message of Gov. Noyes is that of enacting a law in favor of county superintendents of common schools. Educators of all classes, as far as we can ascertain, are almost unanimously in favor of such an officer in each county: and during the present session our legislators will have opportunity to show how they stand on this important question. To give efficiency and secure unity to our school system it seems indispensable that some competent, responsible and trust worthy head should be in every county, whose duty it should be to carry out the provisions of the law, and encourage, instruct, if need be, local teachers, and so manage this great duty as to promote this work of education. Is Stark county ready?

Was there a chicken fight in town last Saturday night? That is the question,—who can answer it?

ABOUT TEMPERANCE.

We know not whether the recently expressed report that the Good Templar lodge of Massillon is about to give up the ghost causes more rejoicing than sorrow in some places. Among the grogbruisers and their sympathisers of course it is looked upon at a triumph of that interest, while the sincere friends of sobriety are sorry that such a thing is even among the probabilities. Here we have a population of 6,000 or 7,000 people, and—if this lodge goes out—there is not a single agency at work, at least in the shape of organized effort, to do battle against the tide of intemperance. One consequence of this state of affairs is not going to be good for the reputation of Massillon. As a speciman of the opinion of people elsewhere read what our good sister Brown, of Alliance has to say in the last Monitor:

"It is not surprising that a Good Templers lodge should give up the ghost in Massillon when the freights are daily carrying whisky and beer to that place. When the people like whiskey and beer they do not like and will not keep up Good Templars lodge. Yesterday five barrels of the genuine adulteration and twenty casks of beer passed through to that civilized town. We do not claim that the pest all gets through this city to that place."

Are the good, sober, exemplary people of our city—and we know there are thousands--ambitious for such a reputation as paragraphs like the above will spread through the land? If they are we very much mistake their sympathies. There is a temperance element here, but it lacks that unity of effort which is indispensable to give it efficency. If the community is so indifferent as to permit the only temperance organization among us to die for want of a little personal effort on behalf of each, because they don't like its plan of carrying on the work, in the name of all that is good get up something else that will be more satisfactory and tend to promote the reform. A few of us became connected with the Good Templars and Sons of Temperance orders, because there was no other organization at work in that direction, in order to aid in carrying on a good cause—and everybody knows and acknowledges it is such—but the manifest indifference of the community toward doing anything to help them on in the warfare in which they were engaged, permitted the latter to die out years ago, and the former may soon follow. Under the most discouragiug circumstances much of the time we kept up the lodge some five or six years, and the division some ten, or twelve years, and at certain brief periods prospered propitiously, and in a manner cheering to the hearts of every well wisher of our race. But one and another lost interest in the work, forgot the solemn pledges they took, and and ceased to care for the promises so often reiterated, to labor to redeem the people from the blighting curse of intemperance. If temperance work must cease here under the auspices of these organizations we trust something, if possible, more efficient than they were will take their place. But weak and inefficient as the labors of these organizations may have been deemed, their work has not been in vain. A number of trophies there are to tell the world that they are reformed men, and we have an abiding faith that they will live out their days in adhering to the covenant which they entered into for life before high heaven and their fellow members. Even if they saved but one man their work was not in vain,—but their saving power embraces many.

The slaughter of intemperance is going on right among us, and it is not for us to point to startling facts as proofs of this alarming state of affairs —our community knows better than we can tell it that men are falling to the right and left of us—that many a hearth stone is made desolace, and many a family is mourning at the inroads of the monster intemperance, because of the loss of some loved one. There is therefore a world of work to do, and who is to carry it on? Shall Massillon be indifferent while all the world seems moving in this reform? If there is a feeling of shame, or sorrow, or duty, or penitence left, let our people go to work in any way to labor for the right, and it will tell in behalf of humanity.

In our late war many a patriotic hero fell, but the cause of liberty triumphed at last; and if our little organizations here are to die it wont stop the cause —that will prevail.

Though amid the sorrows of friends, the sneers of enemies, and the manifest indifference of professing Christians if our lodge must cease its labors, there are some of us who don't expect to quit work in behalf of temperance as long as we have the power to do even a trifle in that direction. Deserters may fly before the enemy, traitors may turn up at every corner, and enemies may exalt in seeming triumph, the end is not yet. If we are not permitted to do battle for the right in any portion of the organized forces of temporance, we can go it single handed, never fearing the ultimate result.

But a few weeks will pass away until it will be time to select some man in Stark county as representative to the coming constitutional convention, which will be held at Columbus, probably commencing in May. Who is the coming man? He should be one of the best of men in the county—one in whom the people have confidence, not only in his judgment in matters pertaining to business, but as to his ideas of human rights, his sympathies with the welfare of all, and many other desirable traits indispensable in the character of a lawgiver. It is with the fundamental laws of our state that this convention is to grapple, and none but men of comprehensive grasp of mind will be suited to fill so responsible a place.

A life insurance case lately came before the supreme court of Ohio, wherein the company refused to pay the policy of a man who died from the effects of drinking. On mature consideration of the question it was decided by the highest tribunal in the state that the compauy was not responsible for the amount claimed in the policy of the plaintiff for the reason above given. Although to the policy holder this decision may seem a hard one, yet it is but simple justice; and instead of seeking aid from an insurance company, whose policy the assusred had vitiated by intemperate practices, an effort to secure exemplary damages from the grogseller who helped to kill the man would have been more successful.

Out in Wisconsin, Michigan and other north-western strtes, last week, they had anoth r ferocious snow storm, not disastrous as to causing the loss of life, but of sufficient magnitude to snow up many of the railroads, some places many feet in depth. On numerous sections men were employed several days in clearing tracks so as to enable trains to pass from one locality to another. And the mercury fell to zero, but from accounts it was not so cold as in December. Here the snow is badly demoralized—well, on Monday it was about gone, nothing of it left but ice, and that too, was fast turning to water. But there is plenty of time for more cold and snow.

N. A. D. A.—Which means the Navarre Amateur Dramatic Association will give entertainments in the Navarre Literary Hall, on Friday and Saturday evenings of this week. The drama, Charcoal Burner will be presented by a number of young ladies and gentlemen, who ask the patronage of the people of that vicinity in their efforts to present harmless and instructive amusement to their patrons. A comic after piece will conclude each evening's exhibition, which should and will put everybody in a good humor, so they can go to bed satisfied, and will enjoy pleasant dreams.

Among the sprightliest dailes is the Dispatch of Columbus. Established something more than a year ago by a number of jour printers in a small, modest way, it has persevered admirably, and lately made a growth of four columns. It is independent enough to say saucy things to anybody that needs reproof, and is always readable. Columbus people like the Dispatch.

Although there is some complaint about the scarcity of money, yet our people are succeeding generally with their annual settlements, and preparing to go ahead another year.

COUNCIL PROCEEDINGS.

Wednesday Evening, Jan. 8th. 1873.

The council met in regular session and was called to order by the president.

Members Present.—Messrs. Crone, Folger, Gise, Kirkland, Oberlin, Ruchti, Warwick and Willenborg.

Minutes read and approved.

Mr Crone from the committee on water works reported plenty of water in the reservoir.

The ordinance fixing the salary of the Mayor and Clerk of the city of Massillon was read a third time and made a law.

On motion of Mr Crone the committee on fire department were instructed to purchase a suitable bell for the fire engine house, not to exceed five hundred pounds in weight.

Mr Gise moved that Andrew Heitger be notified to remove his building now situated on Cherry street Said building to be removed within ten days. Motion prevailed.

Mr Folger offered the following preamble and resolution:

WHEREAS, The people of the city of Massillon, through their agents, the city council, have at great expense erected a city prison, the second story of which was constructed and finished, as far as the same is finished, for an office for the mayor of the city and a chamber for the meetings of this body, and,

WHEREAS, The lease under which the room now occupied by the mayor and city council, will expire on the first day of April next ensuing. Therefore

Resolved, That Messrs Crone and Gise, the members of this council representing the fourth ward in this city, and one other member of the council to be appointed by the president thereof, be a select committee, whose duty it shall be to make a careful survey and examination of said upper story in said prison building, and report a plan and the expense thereof, for fitting up and furnishing the same for an office for the mayor and a chamber for the meeting of the city council, keeping in view proper economy in the style of fitting and furnishing as aforesaid, and that they report at the earliest practicable day.

On motion the foregoing preamble and Resolution was adopted, and Mr Folger was appointed as the third member to serve on said select committee.

Mr Folger presented a communication from the marshal and the street commissioner in which they ask for further instructions in reference to the removal of Mr Benjamin Raser's building, situated on Muskingum street They were informed that no further legislation by the council was required, but that the resolution appointing them to remove said building also gave them the authority to remove the same in the manner they think the most practicable.

The president presented a contract between J F Setterlin and the City of Massillon, in which said Setterlin, in consideration of the sum of two hundred dollars, agrees to let the city have what earth it may require, from the hill on Cherry street, for the filling of Cherry street east of the Pittsburgh, Ft Wayne & Chargo R W.

A bill of Kelly & Brown for hardware $23,01 was presented and referred to the committee on claims.

A bill of the Massillon Water Co., water rent to Jan 1st, 1873, was on motion accepted.

The following amounts were allowed and orders drawn for the same.

F Ertle & Co, repairing hose reel and sundry other work,	$6 95
L Royer repairing hose coupling, fire engine ladders, &c,	6 50
T H Seaman, on salary,	50 00
E Eres, lamp globes, &c.,	102 45
C N Oberlin, payment of judgment awarded A Heitger,	185 00

On motion council adjourned.

Last evening the Rip Van Winkle drama, performed in the Opera House by the amateur troupe of Canton, we are greatly pleased to know were very liberally patronized, the hall beiug filled with well pleased patrons. Rip and Gretchen were done by Mr. Lee and a young lady of Canton as successfully as if presented by long experienced professionals in the art, while all their assistants acquitted themselves most satisfacterily The result must be exceedingly pleasing to our friends of the Hart Post, who have worked so assiduously to make the enterprise a success. It is sufficiently encouraging to try again.

Recent accounts say the Leetonia Furnaces and rolling mill have ceased operations for a time on account of financial troubles. The R porter says their indebtedness is some $800,000, while their assets are represented as being $1,200,000. So it looks as if the company is safe enough, and their embarrassment will be only temporary.

F. R. Myers has promptly favored us with passes on the P., C. & F. W. RR., and the P. & C. R., for which we are much obliged. Time tables corrected up to date.

Louisiana is becoming extravagant, having no less than two governors, both inaugurated last Monday, and of course two legislatures. The state can't suffer for lack of legislation—if it can stand so much official honor at once, the other states need not complain. Congressmen have been debating Lousiana—and the president has concluded to let them work out their difficulties, as long as they don't indulge in violence. When that begins Grant will take a part in the business.

The railroad troubles which have been vexing the people of Bethlehem township have been finally quieted—which is a good thing for that community.

Edward Latimer of Orrville, while at Omaha, Nebraska, died last Saturday. He was a faithful, patriotic soldier during the war. The Crescent states that he is to be buried in the Massillon cemetery to-day.

Among newspaper men there is a class who are always printing 'smart' things about somebody's mother, wife, sister or daughter —not a very elevating or dignified practice. It must have been some genius of that sort who lately set afloat the ponderous item, which has been embellishing our exchanges for some time, that there are 121 widows and 200 marriageable girls—total 321—feminine candidates for matrimony in Massillon. Where the writer discovered his statistics we are not advised; perhaps he is some inquisitive Jenkins who would grace a position in Mr. Walker's bureau of marriage statistics at Washington. At any rate some customer seems desious of humoring the joke, or at last having a bit of fun, as the following brief addressed to a gentlemah in this city indicates:

SUMMIT SPRINGS,
Beaver Lake, Dist. Utah.

Dear Sir—I noticed in the Brooklyn Eagle of Dec 9th, 1872, that Massillon, Ohio, has quite a number of the fair sex—121 widows and 200 marriageable girls To think of it! I want (in the first place) you to understand that we are not Mormons, but honest miners, and liable to be rich at any moment, *after a sale is made*, and we are unmarried men of 27 and 30 years of age; so advertise at your place, that we are strictly on the marry, and wish to correspond with two sensible, refined and educated young ladies, with a view to mutual improvement and matrimony. This is for the good of Massillon, so, do not treat it with contempt

Truly yours, &c.,
GORDON & SMITH,
Beaver Lake Mining Dist.,
Utah,

P. S. A photograph would add somewhat to push matters. G. & S.

We think it will be safe to leave this serious matter to be settled among those to whom this appeal for letters and photographs is made.

The following has been handed to us for publication. We follow copy:

Would that I knew the person that past Sunday so disagreeably that — could not do any thing with the exception of trying to read some books of which I dont believe — remembered a particle on account of — troubles, happy troubles I should call them, and I am sorry that I cannot enture them with — and that I appreciate — feelings. There has been several Sundays pass since the above took place, and I would like to know how they were past. Not being acquainted very well, as you say, then of course I can not have much to say untill we are better known to each other.

A LETTER RECEIVER.

London, January 13.—A dispatch from Bombay says that a report has reached that city that a terrible earthquake occured at Soonghur, a town of India, in a detached dispatch of the Barada dominions, one hundred and fourteen miles north of Bombay. Fifteen hundred persons are said to have been killed in one town alone. Nothing has been heard from the surrounding country, but it is feared that there is much additional loss of life.

Chillicothe, Ohio, January 13,1875.

What is known as Copperas mountain, sixteen miles from here, has been on fire internally since the first of October last, destroying al vistige of vegetation round about. No investigation has yet been made, the heat being too intense to permit of a search. Reports to-day say there was an explosion in the hill yesterday afternoon and the soil on the side upheaved, creating considerable of an apperture. No particulars are yet known here. This curious freak of nature is the wonder of all the surrounding country, for the reason that no suspicion has ever existed that coal or other combustible substances could be found in this section, and no surmise can be formed as to the kind of substance that is burning.

OPERA HOUSE, MASSILLON.

TO FARMERS—We are paying $7 00 cash per ton for straw delivered at the paper mill. MASSILLON PAPER CO. tf

Next sociable of the Presbyterian church will be held at the residence of James Neall, on to-morrow evening. It is pleasant to visit these gatherings as all who have done so can testify.

Mr Gray, since purchasing an interest in a large dry goods store at Waynesburg, we are informed, has also taken stock in a coal mine in that vicinity. We hope he will be prosperous in his enterprises.

The New Lisbon Coal Co has provided against the strike which took place recently among the miners. They sent to Virginia and brought on some 60 or 70 colored miners, said to be experienced in the business, and they have gone to work.

According to some of the papers they must be dealing in small pox, not only at retail but by wholesale, at Wellsville. The Union, which is published there, denies these Bohemian sensational stories—they are false.

That remarkable day of the year, St. Valentine's day, this year comes on the 14th of February. A vast amount of pictorial wit about that time explodes itself.

The great Martinetti Ravel Troupe are coming and will appear at the Massillon Opera House, Friday and Saturday evenings, Jan 17 and 18: also a grand matinee for ladies and children on Saturday afternoon at 2 o'clock. A Cleveland paper says:

"The Martinetti Ravel Troupe commenced their short season last evening with a very large audience. The popularity of this company was tested by the extraordinary attractions offered by Barnum's great shows, but come out triumphant. Since they were last here quite important additions have been made to the company, and as now constituted it embraces an aggregation of meritorious talent that they have never before offered, and we doubt if any other company of the kind in the country is its equal in this style of popular amusements. The entertainment opened with the serio-comic pantomime of "Jocko," not new here but always received with favor. It is affecting as well as amusing. This was followed by an olio of music and dancing, in which the wonderful prodigies, Master Ignatio Martinetti and La Petite Adele, took conspicuous parts. The concluding portion was the new pantomime called "Pat a Cake." It is full of tricks and abounds in a perfect revelry of fun that keeps the house in a perfect uproar of merriment. It is one of the best constructed pantomimes produced in a long time and is bound to please everybody who may have the pleasure of seeing it. We do not know where a more agreeable and pleasant evening can be passed than at the Academy of Music, while the Martinetti troupe is here, which will be for only a few nights.

As our schools are again in active operation it will be well for the friends of education to visit them. Let the instructors and children see that they have friends who think enough of them to call and take a note of what is transpiring.

On Monday the cloudiness was so dense as to render it necessary to have artificial light in some places. If we were in that fix here how did the people of Pittsbugh fare? They needed gas all the time in some of their deep, dark rooms.

S J. Cameron, a young man who has been connected with the Carroll Free Press as apprentice, we believe, then journeyman, then localizer, has recently purchased that paper, all by his unaided means, and is now sole proprietor and editor He deserves credit for his industry, good management, and is in a fair way to prosperity. None of his means was was fooled away for trifles, drinks, tobies, we may well believe, but judiciously expended, or saved up for active use when the proper time arrived.

A dozen or more grown up boys were seen last Sunday evening, on Main street, with a bottle of whisky, taking their swigs without restraint. Perhaps some may say such conduct is more honorable than a temperance organization—we don't see it in that way.

Try the light running Domestic, the quiet Domestic, the reliable Domestic, the competent Domestic, the ready Domestic, the willing Domestic, the useful Domestic, the Domestic blessing, the Domestic necessity. It is the Domestic you want. Do not buy until you try the Domestic Sewing Machine. John Lowe, agent, 2nd floor Opera Block, Massillon, Ohio.

Carpet baggers are pretty numerous these days Go where we may we can see some members of this class showing samples of goods, wares, and manufactures in great variety. It is an accommodation to many to have visitors of this class occasionally, but when they begin to crowd us they are bores—for some of them do carry patent augers, and sich.

The Willow Coal Bank has recently changed hands, Messrs. Foltz & D. D. Rhoades having sold to Rhoades, Jr., Warrington & Hanna of Cleveland. A coal bank here is a profitable investment, and some men have become wealthy at the business.

A very ingenious and useful paper holder and file can be seen at the hardware store of Kelly & Brown, on Erie street. Business men will find it an admirable convenience. Call and see it.

We hope Bro. Gillespie of the Alliance Local is not really worried in body and mind as the manner in which sister Brown conducts the Monitor. It looks as if the Monitor and the Browns were of great use to him, for on them he bestows many of his heaviest criticisms. We think sister Brown has the privilege of conducting the Monitor in the manner to her as seems best, so entreat our adipose brother to rest his soul at ease. It must be his irrepressible desire for fun that leads Joseph into this course—can't he restain it just a little?

Is the Carrollton Chronicle boring its readers with the story of that "dambig" tooth that Mr. Wagner plowed up, and which weighs six and a half pounds, and is 27 inches round? And another of the same size and weight owned by Dr. Whitacre plowed up by the same man—both weighing thirteen pounds? Is that so, or is it a bite?

This is show week week here. Last evening we had Rip Van Winkle—to-night and to-morrow night a traveling show; and Friday and Saturday evenings the celebrated Ravel troupe

In city style the show for to-night has carrying its bulletin of posters about town on a long wagon for several days.

The Cherry street bridge has been put across the canal, and the contractor is now at work filling up the space between the bridges across the river and canal, so as to give the street the proper level, and connect it with the railroad junction. When this is accomplished it will be found a great convenience to our citizens, as the probability is that not long in the future the several railroads will have a union depot at that point. Not far from this new street extension is a mound, which rises perhaps 25 or 30 feet above the surrounding level, and the earth is being removed to the roadway. While excavating earth and gravel for that purpose, some ten feet beneath the surface, limbs of a tree have been found in a good state of preservation. It looks like the silver leaf maple, or something of that sort, and is as sound as new How many centuries this wood has been there the oldest inhabitant cannot tell.

It will not require much work to connect Erie street with Cherry, and that will probably be done before long. Which will be of considerable advantage to the citizens and business men, north of Main street, who may desire to communicate with the railroad by that route.

On Thursday last our friend, George Robinson, had a streak of rather bad luck, as he lost his pocket book in which was a note of hand for $1,000, two notes of smaller amts, and fifty dollars in money. He was about to issue posters offering a liberal reward, but fortunately for him, an honest man, Mr. James Abraham, was the finder of the lost property, and he returned it to the owner, who was glad to reward the finder handsomely for his honorable course.

DEATH OF MR. BREWSTER.—A little after noon of last Wednesday as Mr. Frank Childesters, son of Dr. E. Childester, was about entering the dental rooms over Humberger & Son's store, he was surprised to find the dead body of Mr Brewster, lying near Dr. Catlin's office door. He immediately ran to the store below, informed Joseph Newstetter of the fact. They returned and found the deceased, and as Dr. Catlin's door was locked, and he was in the country, Dr. Ridenour was summoned, who promptly came to the place, and on examination found the man was dead as no indications of life remained. For some days Mr. B. was not well, and for this reason visited Dr Catlin in order, if possible, to secure relief, and is supposed he went up to the doctor's office to see him, and not finding him there, and the door locked, he gradually weakened and fell, dying alone, apparently without a struggle. The body was promptly taken care of by the township authorities, laid away in a suitable place, where it remained until Saturday, awaiting the attendance of some of his relatives, who live a considerable distance from this place. On Saturday the funeral took place at the cemetery, attended by a number of our citizens. It is not known what was the immediate cause of his death, but it is supposed some affection of the heart brought about this unexpected result. Mr. B. was a kind hearted man, favored with more than ordinary intellectual gifts, and as a consequence was quite intelligent in regard to public affairs He was a very warm friend of Mr. Greeley, and earnestly labored for his election. Mr. B. was never in public life, that we know of, but was a quiet, industrious mechanic, and although a poor man and comparatively obscure, will be missed in our community.

Bro. Folger, the lively Massillon correspondent of the Canton Democrat, respectfully asks if the editor of the INDEPENDENT received a watch via a lottery. We plead guilty in the first degree, and are willing to undergo a like favor when it comes along. Who would'n't?

Since our lag "esha" the remark has been made over half a dozen times, that it is cold weather—sometimes awful, awful cold And it has been so. Although the mercury did not humbly descend to fifteens below zero yet the absence of heat was sufficient to solidify a good many of the water plugs about town, rendering them useless

Andrew Snyder, who has been carrying on the tinning business for several years at the corner of Tremont and Mill streets, in Mr Reeves' building, has sold out his establishment to two men, Ohler & Gise, who will continue the trade. As Mr Snyder was successful there is no doubt but the new firm will be prosperous, as we take them to be industrious, steady young men.

Our readers will find a rather entertaining article on first page on the subject of geology, or history of the earth. To the majority of people many of the facts therein embodied will be new and instructive. We hope for further favors of the same sort, but would prefer them about half as long as the one alluded to.

After the cold snap Sunday began to warm up again, and at this writing we can't say how it will come out in a week hence. As a general thing old Probabilities hits the weather pretty well, say twenty-four hours in advance. Out in Milwaukee they got snowed up last week, but here the snow was scarce,

The best muslin for 12½ cents bleached or brown at Humberger & Son's.

Great inducements to buy your dry goods at Ricks'. Look at these prices: A good French merino at 75 cts, worth $1 00; empress cloth 50 cts worth 75; cords and reps in colors 37 cts worth 50; a good pair of white bed blankets $3 50 and $4.00; bed comfortables and colored blankets cheap: all persons, who are in want of any dry goods, will find it to their advantage to call and see us.

Closing out our stock of Carpets at greatly reduced prices to make room for our spring supply Now is the time to buy a cheap carpet, call at Ricks' and see.

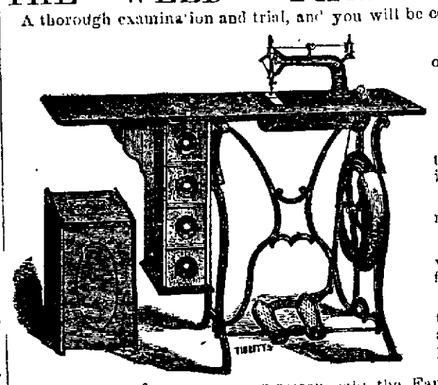
LADIES! DON'T GET IN A HURRY,

When about to purchase a Sewing Machine, but take time to give

THE WEED "FAMILY FAVORITE"

A thorough examination and trial, and you will be convinced of the following facts.



1. That it runs faster than any other Shuttle Machine.

2. That it is the simplest and most convenient machine to operate in the market.

3 That it is the easiest machine to oil and clean, every part being in plain sight.

4. It has no acting spring, every motion being positive.

5. It has a brake on balance wheel to prevent the machine from running backwards.

6 The new shuttle and upper tension, which have recently been added are the simplest and most perfect yet introduced.

These are a few of the many reasons why the Family Favorite is fast becoming the leading machine in the market as

One Hundred and Fifty Thousand

The Great Cause

Of Human Misery.

Just published, in a sealed envelope. Price six cents. A lecture on the nature, treatment and radical cure of spermatorhœa, or seminal weakness, involuntary seminal losses, impotency, physical and mental incapacity, impediments to marriage, etc; also consumption, epilepsy and fits, induced by self indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife, pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

VINEGAR BITTERS

VEGETABLE PURELY FREE FROM ALCOHOL

DR. WALKER'S CALIFORNIA VINEGAR BITTERS

Vinegar Bitters are not a vile, cheap Liquor made from Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the unwary to drunkenness and ruin, but are a true medicine, made from the pure Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Perfect Renovator and Invigorator of the System. Never before has a medicine been compounded possessing the remarkable healing properties of Vinegar Bitters. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

Rheumatism and Intermittent Fevers. No remedial agent has been so successful in such cases as Vinegar Bitters. Thousands throughout our land testify to their wonderful curative powers in such diseases. Bilious Remittent, and Intermittent Fevers, Diseases of the Digestive Organs, Diseases of the Blood, Liver, Kidneys and Bladder are all thoroughly cleansed, purified and invigorated by the use of Vinegar Bitters. No person can take these Bitters according to directions and remain long unwell, provided their bones have not been destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

No Person can take these Bitters according to directions and remain long unwell, provided their bones have not been destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms are the offsprings of Dyspepsia. In these as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the blood they remove the cause, and by relieving Congestion or Inflammation of the Liver and other digestive organs the affected parts receive health and a healthful action.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative and Tonic.

The Aperient and gentle Laxative properties of Dr. Walker's Vinegar Bitters are the best remedial agent in the world for Purifying the Blood, and curing all Diseases arising from Impure Blood.

They are a Gentle Purgative as well as a Tonic, possessing the power of exerting a healthful influence upon the various organs of the body, at the same time giving tone and vigor to the whole system. In this respect they are superior to the usual class of bitters, or Tonics, as they are more powerful to cure Diseases, Pains and Aches, and Weaknesses, but they do not prostrate the system like the ordinary Tonics.

Their Counter-Irritant Influences exercise a controlling power in all inflammatory diseases, relieving congestion or inflammation of the Liver, Kidneys, Heart, Lungs, Brain, Prostate Glands, Bladder, Nervous System, Stomach, Bowels, Blood Vessels, Joints, &c.

Fever Counteracted and Chronic Rheumatism Cured. Fevers of all kinds are caused by a high state of inflammation, and to cure them you must remove the cause. Nothing in the world will do this more speedily than Walker's Vinegar Bitters. Persons who are subject to Chills and Fever, Bilious Fever, or any disease of a Malarious character, will find a thorough purification of the system, and a prompt removal of the cause of disease, secured by a few bottles of Walker's Vinegar Bitters. Chronic Rheumatism, that has defied the skill of the best physicians in the country, has been cured by this wonderful medicine. Thousands can testify to the truth of this statement.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and health will follow in the system.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful and successful remedy ever administered to the sustaining principle of life.

Pin, Tape, and other Worms lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages. One bottle will convince the most skeptical of their curative effects. Don't suffer yourself or your children to be tortured with worms, but get the remedy that will remove them. No system can resist their influence when Walker's Vinegar Bitters are administered according to directions and the diseases they are liable to produce. Don't be imposed upon by worthless preparations with "Vinegar" in their name, because they contain the word, but be sure you get Walker's Vinegar Bitters, if you want to get well quick.

Bilious, Remittent, and Intermittent Fevers, which are caused by the Poisonous Miasma with which the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Arkansas, Red, Colorado, Trinity, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, Delaware, Hudson, Connecticut, Merrimac, Kennebec, and many others, in the Southern, Western, Middle and Eastern States, especially during the Months of August, September, and October, and in many other localities, are invariably treated with success by the use of this Bitters. In their treatment, a purgative, assisted by counter-irritants and tonics, is required in the first stage of the disease, to relieve the system of the deleterious matter with which it is clogged. Then a gentle tonic should be taken to prevent a return of the disease. No cathartic for the cure of Fever and Ague can be compared to Walker's Vinegar Bitters, as they never fail to thoroughly cleanse the stomach, liver, and bowels, which cathartics cannot do. Being composed entirely of Vegetables, they do not prostrate the system, but leave it as healthy as before the attack.

Scrofula, or King's Evil, White Swellings, Ulcers, Eruptions of the Skin, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

For Inflammatory and Chronic Rheumatism, Gout, Neuralgia, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by a disordered Liver or Stomach.

They are a Gentle Purgative as well as a Tonic, possessing the power of exerting a healthful influence upon the various organs of the body, at the same time giving tone and vigor to the whole system. In this respect they are superior to the usual class of bitters, or Tonics, as they are more powerful to cure Diseases, Pains and Aches, and Weaknesses, but they do not prostrate the system like the ordinary Tonics.

For Female Complaints, in Young or Old, Married or Single, at the Dawn of Womanhood, or the Turn of Life, these Bitters display so decided an influence that improvement is soon perceptible.

For Inflammation of the Bladder, Kidneys, Stone in the Bladder, Cravel, Pain in the Region of the Kidneys, and all Diseases of these Organs, these Bitters act with great efficacy in removing Inflammation and Pain.

For Diseases of the Blood, Liver, Stomach, Bowels, Kidneys and Bladder these Bitters have no equal. Such Diseases are caused by Vitiated Blood, which is generally produced by a disordered Liver or Stomach.

Fortify the body against disease by purifying all with Vinegar Bitters. No epidemic can take hold of a system thus prepared. Keep the Liver, the General Cathartic Bowels, the Kidneys, and the Nerves and Blood, free from disease-proof in your power to do so.

Directions.—Take of the Bitters on going to bed at night from a half to one and a half wineglassful. Eat good nourishing food, such as beefsteak, mutton chops well done, roast beef, and vegetables, and take outdoor exercise. They are composed of purely vegetable ingredients, and contain no spirit.

Our Bodily Infirmities.

The ills of humanities are the lot of all. Millions are always sick No man, woman or child is long entirely in perfect health. Much, however of the sickness and suffering which renders life a burden to so many of our fellow beings is due to carelessness and neglect. A mighty antidote to the leading causes of disease has been provided. It is as harmless as it is efficient. No poisonous drug enters into its composition. It is an undefiled stimulant, tonic and aperient, of which every ingredient is vegetable. The prescription of the proprietary and restorative medicines is not a "new thing under the sun." Hostetter's Stomach Bitters will soon have been before the world a quarter of a century; and it is not too much to aver that thousands, tens of thousands, are now using it who would have been strengthened and saved by this wholesome stimulant. The rapidity with which minor ailments often become, when neglected, obstinate diseases, is well known. This tonic is famous for the immediate check which it gives to these disorders of deadly disorders. The sensation of languor, the sick headache, the nervousness, the indisposition to exertion, the nausea, the confusion of brain, the physical debility, which are intended to premonish us of the approach of serious danger, are invariably removed by a few doses of the Bitters. The force of the preparation as a genuine specific for dyspepsia, bilious complaints, malarious fevers, rheumatism and chronic debility, is as wide as the world; and in these days of infamous charlatanism, when fierce cathartics, that rob the invalid of the last remnants of his strength, are advertised as antidotes, it is indeed a blessing to mankind that Hostetter's Stomach Bitters are ever, where popular.

Bells have been known and used in China for 4,000 years, but the Celestials have not during all the time shown any appreciation of American manufacture. The first installment from this country was a recent shipment of three large sized bells to Shanghai by a Troy (N. N.) firm.

The newest style of mirrors are framed with wide frames of burnished steel, and the chandeliers are to match of glass and steel, with glass pendants. By gas light the effect is perfectly dazzling, and many of the new houses being furnished have adopted this style.

THAN PAGING.

The following anecdote forcibly illustrates a choice plan to obtain a tender turkey, and for which our patrons should feel duly thankful:

A merchant who was noted for his stuttering as well as for shrewdness in making a bargain, stopped at a grocery and inquired:

"How m-m-many turkeys have you g-g-got?"

"Eight, sir."

"I-I-tough or i-i-t tender?"

"Some are tough and some are tender," was the reply.

"I-I-ish I-I-boarders," said the new customer. "P-p-pick out the f-f-four or-r-r toughest turkeys, if you please."

The delighted grocer very willingly complied with the unusual request, and said in the politest tones:

"These are tough ones, sir."

The merchant then coolly put his hand upon the remaining four, and exclaimed:

"I'll t-t-take th-t these."

BILLINGS' GOOD RESOLUSHUNS FOR 1873.

That i wont smoke enny more cigars only at sum body else's expense.

That i wont borry nor lend—espesh-ly lend.

That i will live within mi inkum if i kan git trusted to do it.

That i wont advise enny body, until i kno the kind ov advise they are anxious for.

That i wont swop dogs with no man, unless i kan git two for one.

That i wont sware enny, uneless i am under oath.

That poverty may be a blessing, but if it is, it iz a blessing in disguise.

That i will take my whisky hereafter straight to the gutter.

That the world owes me a living provided i earn it.

That i wont swop enny horses with the deakon.

That no man shall beat me in politeness, not so long as politeness kontinues tow be as cheap as it is now.

That if a man kills me a phool, i won't send him to prove it.

That i will lead a moral life, even if i go bursted and lose a good deal of fun by it.

That if a man tells me a mule won't kick i will believe what he sez without trying it.

That i will try hard to be honest, but it will be just my darned luck tew miss it.

"Whittlesey," for the blood, liver and kidneys.

"Whittlesey," for female complaints.

Don't hawk, hawk, spit, spit, blow, blow, and disgust everybody with your catarrh and bronchitis, when Dr Sage's catarrh remedy will speedily destroy all odor and arrest the discharge.

"Whittlesey," for worms and pin worms.

A Solemn Truth—Dr Keyser's Lung Cure with the Doctor's instructions, has often cured some of the most hopeless cases of consumption. Its whole action is fully explained in an essay of thirty two pages, which can be had by addressing the doctor, at 167 Liberty, or 120 Penn street, Pittsburgh, Pa. It is not in lung diseases alone that this great remedy is effective. The bronchial tubes in asthma, liver, and kidney diseases are generally within its reach. In fact, in any chronic disease where the blood is unhealthy, it will act with a power and energy that is truly wonderful. Price $1.50 per bottle, or $5.00 per half dozen.

"Whittlesey," for constipation or costive bowels.

THE GREAT SOUTH AMERICAN JURUBEBA BLOOD PURIFIER

is unequaled by any known remedy. It will eradicate, extirpate and thoroughly destroy all poisonous substances in the Blood and will effectually dispel all predisposition to bilious derangement.

Is there want of action in your liver and spleen? Unless relieved at once, the blood becomes impure by deleterious secretions, producing scrofulous or skin diseases, felons, blotches, pustules, canker, &c.

Have you a dyspeptic stomach? Unless digestion is promptly aided the system is debilitated with loss of vital force, poverty of the blood, dropsical tendency, general weakness or lassitude.

Have you weakness of the intestines? You are in danger of chronic diarrhœa or the dreadful inflammation of the bowels

Have you weakness of the Uterine or urinary organs? You must procure instant relief or you are liable to suffering worse than death.

Are you dejected, drowsy, dull, sluggish or depressed in spirits, with head ache, back ache, coated tongue and bad tasting mouth?

For a certain remedy for all of these diseases, weaknesses and troubles; for cleansing and purifying the vitiated blood and imparting vigor to all the vital forces; for building up and restoring the weakened constitution, use

JURUBEBA,

which is pronounced by the leading medical authorities of London and Paris "the most powerful tonic and alterative known to the medical world." This is no new and untried discovery but has been long used by the leading physicians of other countries with wonderful remedial results.

Don't weaken and impair the digestive organs by cathartics and physics, they give only temporary relief—Indigestion flatulency and dyspepsia with piles and kindred diseases are sure to follow their use.

Keep the blood pure and health is assured.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption,** cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs,** the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis,** when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative Pellet** presents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a **most searching** and **thorough,** yet **gently** and **kindly operating cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any Calomel or other forms of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Pain in the Shoulders, Fulness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings,** take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their curative impress.** Age does not impair them; their sugar-coating and being enclosed in glass bottles preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a **Laxative, Alterative** or **Purgative** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Druggists at 25 cents a bottle.

Do not allow any druggist to induce you to take anything else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 25 cents and receive them by return mail from

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

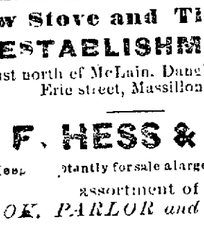
Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.



A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Wishart's Pine Tree

TAR CORDIAL,

Nature's Great Remedy

FOR THE

Throat and Lungs.

It is gratifying to us to inform the public that Dr L Q C Wishart's Pine Tree tar Cordial, for throat and lung diseases, has gained an enviable fame from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the states actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to supply the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, which causes irritation.

Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions and purifies the blood

Third. It is free from squills, lobelia, ipecac and opium, of which most throat and lung remedies are composed, which allay the cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it holds above all others in the market.

NOTICE.

The Pine Tree Tar Cordial,

Great American Dyspepsia Pills,

And Worm Sugar Drops

Being under my immediate direction, they shall not lose their curative qualities by the use of the cheap and impure articles.

DR. AUGUSTUS SLEE

Treats all private diseases with great success Spermatorrhœa, or seminal weakness and impotency, caused by self-abuse, etc—producing General Debility of the body, Indigestion, want of proper Manliness, Loss of Memory, Indolence; reducing the System so as to render Marriage unadvisable—Permanently Cured.

Long standing constitutional disease skillfully treated and cured.

Effects of Mercury Eradicated.

The doctor gives particular attention to Female complaints. Sterility, Ammeporrhœa, Menorrhagia, and all such diseases, causing annoyance and interfering with the general health and enjoyment of life, invariably removed.

Send for the doctor's medical pamphlet, treatise, in plain language on veneral diseases, enabling the afflicted to understand their own complaints. Free at office or sent securely sealed, for six cents.

Ample accomodations for patients from a distance at the house.

Office hours from 9 A. M. to 8 P. M., Sundays excepted. All communications to be addressed DR. AUGUSTUS SLEE,

264 Penn street, Pittsburg, Pa.

DR. WHITTIER

296 Penn St. Pittsburg, Pa.

A REGULAR GRADUATE OF MEDICINE, AS DIPLOMA at office will show, has been longer engaged in the treatment of **Venereal, Sexual and Private Diseases** than any other physician in Pittsburg.

Syphilis, Gonorrhea, Gleet, Stricture, Orchitis, Hernia or Rupture; all Urinary Diseases and Syphilitic or Mercurial Affections of the Throat, Skin or Bones are treated with unparalleled success.

Spermatorrhea, Sexual Debility and Impotency, as the result of self-abuse in youth, sexual excesses in maturer years, or other causes, and which produce some of the following effects, as **Nocturnal emissions, blotches, debility, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society of females, loss of memory and sexual power rendering marriage improper,** are permanently cured. Sealed pamphlet relating to above sent for two stamps. Call or write, a friendly talk costs nothing. Medicine sent everywhere. It is self evident that a physician who treats thousands of cases every year acquires skill. Country physicians knowing this frequently recommend patients to my care.

MANHOOD! WOMANHOOD!

Who may Marry, who not, why. Send 25 cents. Full symptoms Chronic Diseases. 100 pages securely sealed. Address Dr. WHITTIER, 296 Penn Street, Pittsburg, Pa. Ignorance kills more than war and pestilence combined.

NEWSPAPERARCHIVE®

Bells have been known and used in China for 4,000 years, but the Celestials have not during all the time shown any appreciation of American manufactures. The first installment from this country was a recent shipment of three large sized bells to Shanghai by a Troy (N. Y.) firm.

The newest style of mirrors are framed with wide frames of burnished steel, and the chandeliers are to match of glass and steel with glass pendants. By gas light the effect is perfectly dazzling, and many of the new houses being furnished have adopted this style.

THAN ECHING.

The following anecdote forcibly illustrates a choice plan to obtain a tender turkey, and for which our patrons should feel duly thankful:

A merchant who was noted for his stuttering as well as for shrewdness in making a bargain, stopped at a grocery and inquired:

"How m-m-many turkeys have you g-got?"

"Eight, sir!"

"T-t-tough or t-t-tender?"

"Some are tough and some are tender," was the reply.

"I-I-I-keep b-b-boarders," said the new customer. "P-p-pick out the f-f-four t-t-toughest turkeys, if you please."

The delighted grocer very willingly complied with the unusual request, and said in the politest tones:

"These are tough ones, sir."

The merchant then coolly put his hand upon the remaining four, and exclaimed:

"I'll t-t-take these."

RULINGS' GOOD RESOLUSHUNS FER 1873.

That i wont smoke enny more cigars only sich as enny body else's expense.

That i wont borry nor lend—espeshily lend.

That i will live within mi inkum if i kan few get trusted to do it.

That i wont advise enny body, until i kno the kind ov advise they are anxious tew follow.

That i wont keep dogs with no man, unless i kan keep two for one.

That i wont aware enny, uneless i am under-neath.

That poverty may be a blessing, but if it is, it iz a blessing in disguise.

That i will take my whisky hereafter straight to the gutter.

That the world owe me a living provided i earn it.

That i wont swop enny horses with the deakon.

That no man shall beat me in politeness, not so long as politeness kontinues tew be as cheap as it is now.

That if a man kills me a phool, i won't ask him to prove it.

That i will lead a moral life, even if it is lonesum and lose a good deal of fun thereby.

That if a man tells me a mule won't kick, i will believe what he sez without trying it.

That i will try hard to be honest, but if it will be just my darned luck tew miss it.

That the best time tew repent ov a blunder is just before the blunder is made.

That i wont grow enny kats. Spontaneous kats has killed the bisness.

That i will love mi mother-in-law if it take all the money i kan earn tew do it.

That i believe real good lies are getting skarcer and skarcer every day.

That when i hear a man bragging on his ancestors i wont envy him, but i will pity the ancestors.

Finally, i will sarch for things that are little, for things that are lonesum, avoiding all torchlite proceshuns bands or brass music, Wimmins' right conventshuns, and grass widders generally.

"Whittlesey," for the blood, liver and kidneys.

"Whittlesey," for female complaints.

Don't hawk, hawk, spit, spit, blow, blow, and disgust everybody with your catarrh and offensive odor when Dr Sage's Catarrh Remedy will speedily destroy all odor and arrest the disease.

"Whittlesey," for worms and pin worms.

A Silver Tooth—Dr. Keyser's Lung Cure with the Doctor's instructions, has often cured some of the most hopeless cases of consumption. Its whole action is fully explained in an essay of thirty two pages, which may be had by addressing the doctor, No. 167 Liberty, or 139 Penn street, Pittsburgh, Pa. It is not in lung diseases alone that this great remedy is effective. The bronchial catarrh, asthma, liver, and kidney diseases are generally within its reach. In fact, in any chronic disease where the blood is unhealthy, it will act with a power and celerity that is truly wonderful. Price $1.50 per bottle, or $9.00 per half dozen.

"Whittlesey," for constipation or costive bowels.

THE GREAT SOUTH AMERICAN JURUBEBA BLOOD PURIFIER

is unequaled by any known remedy. It will eradicate, extirpate and thoroughly destroy all poisonous substances in the Blood and will effectually dispel all predisposition to bilious derangement.

Is there want of action in your liver and spleen? Unless relieved at once, the blood becomes impure by deleterious secretions, producing scrofulous or skin diseases, felons, blotches, pustules, canker, &c.

Have you a dyspeptic stomach? Unless digestion is promptly aided the system in debilitated with loss of vital force, poverty of the blood, dropsical tendency, general weakness or lassitude.

Have you weakness of the intestines? You are in danger of chronic diarrhoea or the dreadful inflammation of the bowels

Have you weakness of the Uterine or urinary organs? You must procure instant relief or you are liable to suffering worse than death.

Are you dejected, drowsy, dull, sluggish or depressed in spirits, with head ache, back ache, coated tongue and bad tasting mouth?

For a certain remedy for all of these diseases, weaknesses and troubles; for cleansing and purifying the vitiated blood and imparting vigor to all the vital forces; for building up and restoring the weakened constitution, use

JURUBEBA,

which is pronounced by the leading medical authorities of London and Paris "the most powerful tonic and alterative known to the medical world." This is no new and untried discovery but has been long used by the leading physicians of other countries with wonderful remedial results.

Don't weaken and impair the digestive organs by cathartics and physics, they give only temporary relief—Indigestion flatulency and dyspepsia with piles and kindred diseases are sure to follow their use.

Keep the blood pure and health is assured.

John Q. Kellogg, Platt st. N. Y. Sole agent for the United States. Price one dollar per bottle. Send for circular.

For sale by Dr. WATSON, Massillon, O.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption,** cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs,** the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis,** when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

Shovel Plow Points at Kelley & Brown's

Dr. Pierce's Pleasant Purgative Pellets

SIZE OF PELLETS.

Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Billous Granules. THE "LITTLE GIANT" CATHARTIC, or Multum in Parvo Physic.

The novelty of modern Medical, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, **scarcely larger than a mustard seed,** that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little **Purgative pellet** represents, in a most concentrated form, as much cathartic power as is embodied in one of the large pills found for sale in the drug shops. From their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce **a most searching** and **thorough,** yet **gently** and **kindly operating cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any Calomel or other forms of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Headache, Constipation, Impure Blood, Debility in the Shoulders, Fickleness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Bloated feeling about Stomach, Rush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings, take Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sanative impress.** Age does not impair them; their sugar-coating and being enclosed in glass bottles preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a **Laxative, Alterative** or **Purgative** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Druggists at 25 cents a bottle.

Do not allow any druggist to induce you to take anything else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 25 cents and receive them by return mail from

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Wishart's Pine Tree

TAR CORDIAL,

Nature's Great Remedy

FOR THE

Throat and Lungs.

It is gratifying to us to inform the public that Dr L Q C Wishart's Pine Tree tar Cordial, for throat and lung diseases, has gained an enviable fame from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons throughout the states actually benefitted and cured at his office. While he publishes less, so say our reporters, he is unable to supply the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, which causes irritation.

Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions and purifies the blood

Third. It is free from squills, lobelia, ipecac and opium, of which most throat and lung remedies are composed, which allay the cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it holds above all others in the market.

NOTICE.

The Pine Tree Tar Cordial,

Great American Dyspepsia Pills,

And Worm Sugar Drops

Being under my immediate direction, they shall not lose their curative qualities by the use of the cheap and impure articles.

HENRY R. WISHART,

DR. AUGUSTUS SLEE

Treats all private diseases with great success Spermatorrhœa, or seminal weakness and impotency, caused by self-abuse, etc—producing General Debility of the body, Indigestion, want of proper Manliness, Loss of Memory, Indolence; reducing the System so as to render Marriage unadvisable—Permanently Cured.

Long standing constitutional disease skillfully treated and cured.

Effects of Mercury Eradicated.

The doctor gives particular attention to Female complaints. Sterility, Ammenorrhœa, Menorrhagia, and all such diseases, causing annoyance and interfering with the general health and enjoyment of life, invariably removed.

Send for the doctor's medical pamphlets, treatise, in plain language, on veneral diseases, enabling the afflicted to understand their own complaints. Free at office or sent securely sealed, for six cents.

Ample accomodations for patients from a distance at the house.

Office hours from 9 A. M. to 8 P. M., Sundays excepted. All communications to be addressed DR. AUGUSTUS SLEE,

204 Penn street, Pittsburg, Pa.

DR. WHITTIER

296 Penn St. Pittsburg, Pa.

A REGULAR GRADUATE OF MEDICINE, AS DIPLOMA IN OFFICE WILL SHOW, has been longer engaged in the treatment of **Venereal, Sexual and Private Diseases** than any other physician in Pittsburg.

Syphilis, Gonorrhea, Gleet, Stricture, Orchitis, Hernia or Rupture; all Urinary Diseases and Syphilitic or Mercurial Affections of the Throat, Skin or Bones are treated with unparalleled success.

Spermatorrhea, Sexual Debility and Impotency, as the result of self-abuse in youth, sexual excesses in maturer years, or other causes, and which produce some of the following effects, as **Nocturnal emissions, blotches, debility, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society of females, loss of memory and sexual power rendering marriage improper,** are permanently cured. Sealed pamphlet relating to above sent for two stamps. Call or write, a friendly talk costs nothing. Medicine sent everywhere. It is self evident that a physician who treats thousands of cases every year acquires skill. Country physicians knowing this frequently recommend persons to my care.

MANHOOD! WOMANHOOD!

Who may Marry, Who not, Why. Send 50 cents. Pamphlet on Chronic Diseases, 100 pages securely sealed. Address Dr. WHITTIER, 296 Penn Street, Pittsburg, Pa. Ignorance kills more than war and pestilence combined.
